SUMMARY

Product Designer with 4+ years of experience designing and shipping consumer and B2B platforms across proptech, edtech, and astrology. I simplify complex workflows into intuitive user experiences — most recently reworking a key seller journey to cut friction and get sellers through it faster. Comfortable owning product problems from research and ideation through design, validation, and launch.

CORE SKILLS

Product Strategy · UX Research · Interaction Design · Design Systems · Product Analytics · Growth Design · Customer Journey Mapping · Stakeholder Management · AI-Assisted Design

AI SKILLS

Claude Code · Claude Design · ChatGPT · Midjourney · Kling AI · Figma AI · Miro AI · Prompt Engineering · AI Workflow Automation · AI-Assisted Research · Generative Visual Design

EXPERIENCE

UI/UX Designer — Houzeo

Oct 2024 – Present

- Rebuilt the property listing workflow so sellers could get through it faster, without losing any of the detail.
- **Sharpened the Quick Listing experience** with UX fixes sellers noticed right away.
- **Designed and shipped three new features** — Utility Management, Building Details, and Neighborhood Insights.
- Saw strong adoption almost immediately after a recent feature launch.
- Leaned on UXCam, Microsoft Clarity, usability testing, and customer feedback to decide what to build next.
- **Noticed sellers leaned heavily on tablets**, which shaped where the platform went next.

Product Designer — Astro Bharat

Oct 2023 – May 2024

- **Led the rebrand from Astro Yaro to Astro Bharat** — new name, new design, same core product.
- Helped take it from an idea to a revenue-generating business in under six months.
- **Landed 9K+ downloads** in the first two months after launch.
- Built internal dashboards so the team could actually see how the business was doing.
- Worked closely with founders and marketing to move the needle on retention and engagement.

UI/UX Designer — GurujiAstro

June 2022 – July 2023

- **Was part of the team through GurujiAstro's growth from 200K to 2.5M+ downloads.**
- Shipped 5+ product initiatives across GurujiAstro and client work.
- Ran research and feedback studies to figure out what to build next.
- Designed the consultation, content, and engagement experiences millions of users interact with.

UX Researcher — Naaniz Seller Services

Oct 2020 – Dec 2020

- Led user research for Frendy, a social commerce platform, from scratch.
- Designed the experience for Share Doc Scanner, start to finish.
- **Turned research into personas, user journeys, wireframes, and prototypes** the team could actually build from.

SELECTED FREELANCE PROJECTS

- **Zenzop** — Mentored designers and shaped product strategy for a quick-commerce platform.
- **Vokapp (Kaunnective)** — Designed a gamified vocabulary-learning experience for students and teachers.

- **Ozone Space** — Built branding, website experiences, and community touchpoints for a space-learning startup.
- **Astro Sagga** — Redesigned the platform to improve retention, engagement, and premium positioning.
- **Kundali Vala** — Delivered branding and product design for an astrology platform.

LEADERSHIP

- Mentored junior designers and reviewed design quality across projects.
- Led product initiatives from discovery through launch.
- Presented product concepts and design decisions to founders, CEOs, and stakeholders.
- Worked across design, engineering, product, marketing, and business teams.

TOOLS
